## SKILLS

Blockchain

Web3

Frontend

Smart contracts

ML

AI

Golang

Python

Hyperledger

Solidity

Rust

Java

Backend

Relational databases

## ACHIEVEMENTS

3x Web3 Hackathons winner (06/2024 - Present)

I've so far won in 3 web3 hackathons - online and in person

## CERTIFICATES

Web3 Application Development - Metaschool

With projects focussed studying, At metaschool I learnt all it takes to build a world class dApp, DeFi, Protocol and so on!!

Decentralized Applications - Coursera

At coursera, I took time diving deep in how dApps work and under the hood logic behind every BUIDL

Web3 and Blockchain Leadership for Transformation - Coursera

Learnt everything it takes to be a web3 leader and the way governance really influences blockchain success!!

Transition to Web3 Bootcamp - Rise in

Attended a project-driven bootcamp that focused most on building web3 apps unlike traditional web3 apps

Hyperledger fabric chaincode development - Udemy

Learn all it takes to build a permissioned blockchain on hyperledger fabric!
